## PLANTATION

Trees are important, necessary and valuable to our very existence. It's not too hard to believe that without trees we humans would not exist on this beautiful planet. Unfortunately, our need for trees is more than ever. While science and technology has provided us with many comforts, the consequent urbanization and industrialization also has had some undesired side-effects; Global Warming being one of those. The club has identified this problem and has associated itself with this case. Thereby, the Jagrati conducts a plantation drive each year.

## MEDICAL CAMP

Health is wealth If students are healthy they can concentrate on their studies better and give good results. For this we guide their parents to take their children to doctors and take proper medicine. Health camps are also organized By usand general medicines are distributed free of cost to everyone.

Sometimes a small thing you can do mean everything in  
another person's life
